Mark Bric® Display

What do you know about Mark Bric?

You have probably seen the size indicators on the hangers in clothing shops. This is the original Mark Bric product, manufactured in millions and used all over the world. Our system for size marking radically changed and simplified the world-wide handling of clothes, both for shop assistants and customers.

In 1985 Mark Bric introduced a new line of products called Flexiframe®. This light weight, inexpensive, and extremely versatile frame and display system has a wide variety of applications, which significantly impacts markets related to the sign, retail, and exhibition industries all over the world.

BannerUp®, a retractable cassette for quick presentations, with a unique easy banner change, was developed in 1999. A complete pop-up system, SnapUp®, for seamless large scale images was introduced in 2002. New products are frequently added to the program. Some of the latest developments are two tension banner stands, MultiMaster and Impression, as well as SwingUp, our portable literature rack. In 2008 EGO Exhibit, our revolutionary new concept for displays and exhibition building, was introduced. Mark Bric products are today sold in over 70 countries worldwide, through an extensive network of agents/distributors. The worldwide design, production and marketing of Mark Bric display and exhibition products are today handled by Mark Bric Display AB, Böras, Sweden, a company within the Mark Bric group. Sales and Marketing in North and Central America are handled by Mark Bric Display Corporation, located near Richmond, Virginia, USA.

Display and Exhibition Systems

Mark Bric Display **BANNERUP®**
A Family of Dependable Displays

BannerUp® is a registered trademark by Mark Bric Display AB.

RETRACTABLE BANNER STANDS

An excellent tool for public presentations!

BannerUp® is an ideal product at exhibitions, events, conferences and sales promotion campaigns, as well as being a perfect "companion" for sales people on the road. The graphic banner is well protected in a metal cassette and is simply pulled out. In less than one minute your presentation is ready.

- Guaranteed for 10 years
- Heavy-duty cassette with excellent stability
- Roller mechanism is extremely rugged and built to last
- Accepts all types of graphics panels up to 0.45 mm (0.018") thickness
- Patented quick change system for the graphics
- Easy tension adjustment of graphics
- Can be connected side-by-side for larger exposures
- Over 100,000 units sold and proven around the world

For function, quality, endurance and design, you will never find a better value than Mark Bric BannerUp.

Five different models:

- BannerUp Original
- BannerUp Plus
- BannerUp Plus Double
- BannerUp Big Plus
- BannerUp Cabrio

BannerUp Plus™

Thousands of satisfied users around the world consider this to be the premier, top-quality retractable banner stand (rollup) on the market. Equipped with a unique and patented banner change system, enabling you to replace graphics in no time. Choose from two colors, different sizes, single or double sided units and an outstanding selection of accessories.

BannerUp Plus is produced in high finish aluminum and equipped with hideaway swivel-feet for increased stability if needed. The visible front rim of the cassette is only 1.6" high, focusing full attention on the banner.

3 ft. unit now available in matte black powder coat finish!

New

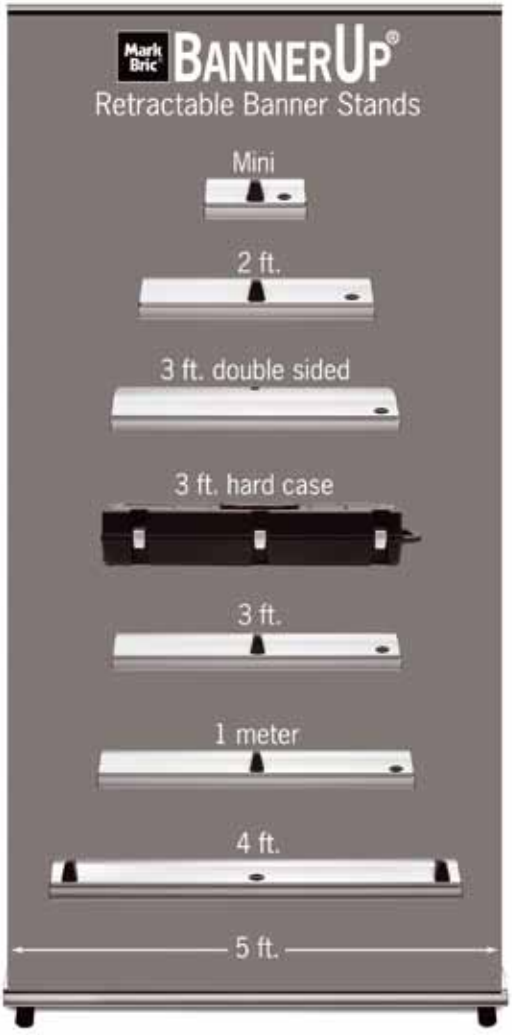
BannerUp Original™

BannerUp ORIGINAL was developed by Mark Bric in 1999, the first retractable banner stand with our patented Quick-Change banner feature. Most customers now prefer the lighter weight, elegant looks, and included soft carry case of the Plus models, but the Original is still frequently chosen as a lower priced entry point. Now available in 3 ft. width only.

Easy banner change

This invention by Mark Bric enables you to repeatedly use different banners in the same cassette. Just slide the old banner out of the cassette and replace it with a new one.

EUR patent no. 1285421. U.S. patent no. 7,040,372. China patent no. ZL00819992.2



All units include a bag/case and 1 pair of "Quick-change" banner rails (top and bottom).

Item No.	Width	Color	Height	Weight*	Case/Bag

Cases & Bags

BannerUp

Hard Case on wheels – Flight case

An extremely strong injection molded case for the 3 ft. units (Plus and Original model). Equipped with top-quality metal latches. Designed to be pulled along on built-in wheels, carried in hand with the comfort grip handle or over the shoulder with the accessory shoulder strap.

Hard case **Item no. 5041**
Shoulder strap **Item no. 5042**
Lashing strap **Item no. 5043**

Carrying Bag

Our carefully designed carrying bag with extra thick padding gives shock-proof protection against damage during transport. A convenient shoulder strap is also attached.

Width	60	88	100	120	150
Item no.	5029	5020	5021	5022	5023

BannerUp Double Plus™

The "Double Plus" is extremely stable and is available in the standard size of 3 ft. x 83". Add extension poles for greater heights. Wheeled carrying case included for ease of transport.

Item No.	Width	Height	Weight*
81125	3 ft.	83"	31 lbs

*Weight is including bag.

BannerUp 3 Ft. Case

Two 3 ft. BannerUp cassettes, in soft carry cases, fit nicely inside this convenient 2-pack case, with built-in wheels and handles. Case is also useful for the transport of BannerUp Cabrio and BannerUp Double. 15x7x40"

Item No.	Description
5084	3 ft BannerUp Case

BannerUp Big Plus™

Nearly 50 square feet of graphic area for maximum attention

The Mark Bric "Big Plus" is available in widths of 4 and 5 ft., with a total height of an impressive 118". These larger sizes offer completely new and improved possibilities to display your graphic images to maximum effect.

The "Big Plus" units are equipped with extra-long metal support feet for best possible stability.

Item No.	Width	Height	Weight
81137	4 ft.	118"	20.9 lbs
81138	5 ft.	118"	23.1 lbs

*Weight is including bag.

BannerUp 4 Ft. Case

This tough, high impact polyethylene case makes a great way to ship multiple BannerUp cassettes. The Luxus case has built-in wheels and handles, and holds up to four 4 ft. BannerUp units, each in its own soft case. 12x15x53"

BannerUp 5 Ft. Case

Two 5 ft. BannerUp cassettes create a full 10 ft. backwall – carry them or ship them together in this convenient new 2-pack case with built-in wheels and handles. 13x8½x63"

Item No.	Description
5082	4 ft BannerUp Case
5083	5 ft BannerUp Case

BannerUp Cabrio™

First roll-up with full possibility to customize

Completely customize your next banner display with BannerUp Cabrio, a unique new invention from Mark Bric Display.

Cabrio is the first retractable banner stand with interchangeable logo plates. Quickly and easily change the style and color of your casette to exactly match your banner graphics, or enhance your brand identity with custom-printed plates.

Design Patents Pending
USA - 29346914
EU - 001136386

Base model

Use the cassette as is, without the addition of logo plates, for a top-quality, economical stand with a high-tech look. One set of plain aluminum plates included free with each Cabrio.

Item no. 81150

Classic model

Add any of our standard logo plates to give the Cabrio a mainstream, classic appearance.

Anodized aluminum, item no. 81160 (included)

Black, item no. 81161

White, item no. 81162

Red perforated, item no. 81163

Customized model

Start with our standard logo plates and fully customize the Cabrio for your application. Add decals or full vinyl wrap to the plates for a totally unique Cabrio effect.

Two options for total identity

Changing the logo plates

Interchangable plates. Choose different colors, add your logo etc.

Changing the graphics

A patented quick change system for the graphic banners.

Features

The standard Cabrio model is fitted with a ***fabric-friendly*** top snap rail.

Cabrio comes in a padded carrying bag.

Add spotlights for increased visibility.

Accessories

"Quick-Change" mounting kit

The easy banner change is a unique feature on the BannerUp models and Quick-Change rail kits are available for mounting on your replacement banners.

BannerUp Plus & Original

The standard kit contains one pair of rails (top and bottom) including top-quality 3M mounting tape and security push pins (black and white color). A Snaplock top rail is also available, eliminating the need for top-rail replacements.

	Width	Mini	2 ft.	3 ft.	3 ft. black	1 meter	4 ft.	5 ft.
Tape Rail	Item no.	81019	81022	81020	81026	81030	81040	81050
Snaplock Rail	Item no.	n/a	85074	85070	n/a	85071	85072	85073
Bottom Rail only	Item no.	n/a	89179	89183	n/a	89259	89304	89354

BannerUp Cabrio

The top rail has a reusable snap function and never needs replacing, cutting in half the price of the Quick-Change kit. The bottom rail is our standard 3M mounting tape style and may be purchased separately for additional banners.

Top snap rail Aluminum, 3 ft. - Item no. 81027
Top snap rail black, 3 ft. - Item no. 81028
Bottom tape rail, 3 ft. - Item no. 89183

Please observe: One Quick-Change mounting kit is included with each Banner-Up cassette unit, enabling the first banner to be installed.

Extension pole

Extension poles allow you to increase the banner height up to a maximum of 118". 4 and 5 ft. models require two pole sets, all others use one set.

** 2 ft. model has intermediate heights different from the rest of the line.*
Please ask us for details if you plan to use the 2 ft. stand at other than full standard height.

Cabrio	Cassette size	Banner Width (A)	Visible Banner (B)	Display Height	Total banner length (C)
3 ft.	4.3" x 3.9" x 35"	34.63"	79"	81"	92.5"

Original	Cassette size	Banner Width (A)	Visible Banner (B)	Display Height	Total banner length (C)
3 ft.	4.5" x 4 " x 35"	34.63"	77"	81.5"	90.5"

The banner material can be vinyl, fabric, double-sided laminated paper etc. Recommended maximum thickness of material: 0,45 mm, 0.018" or 18 mil. The material should be supple enough to easily roll around the roller.

Mark Bric Display

Impression™

A Family of Dependable Displays

TENSION BANNER STAND

Focusing on design and quick set-up

A most elegant stand to further strengthen the impact of your promotion. Two models (Impression 1 and 3) to choose from.

- Few components make assembly extremely fast and easy
- Perfect stretch of your graphic banner
- Top class material is used in all details
- Minimalist design focuses full attention on the graphic banner

Both Impression 1 and Impression 3 are delivered in elegant and practical carry bags, with space for the graphic banner as well.

- The Impression 1 bag takes rails of maximum 3 ft. width.
- The Impression 3 bag takes rails of maximum 40" width – for wider graphics purchase our graphic bag, item 5035, (see page 16).

Both models are equipped with solid feet in stainless steel and a strong 3-section fiber glass pole joined by an elastic cord.

Impression[1]

with mounting tape rails

Impression[1] uses the well-tested BannerUp Aluminum top rails with extra strong top-quality 3M mounting tape, as well as security push pins to hold the graphic securely in place. **One pair of rails is included with each delivery of the Impression stand.** Extra rails kits can be purchased for your replacement banners.

- 3 ft. standard width
- Ability to mount a spotlight
- Solid stainless base for maximum stability

Please observe: One quick-change banner kit is included with each Impression[1] stand cassette unit, enabling the first banner to be mounted.

Impression[3]

with snap-lock rails

Impression[3] uses our aluminum banner rail (snap-lock) profile. Quick and economical – no need to exchange rails when you exchange graphic banner/message. Just snap-off and snap-on!! 100% secure locking, grips up to 0.016" thickness of material.

- Full flexibility in graphic width
- Easy and economical change of graphics
- Low weight base for maximum portability

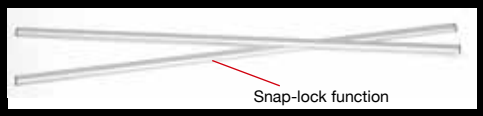
Mark Bric Display **Multi Master™**
A Family of Dependable Displays

MULTI-PURPOSE DISPLAY STAND

One stand – mastering multiple challenges!

This multi-purpose stand masters perfectly graphic banners and rigid panels, as well as signs and posters framed with Flexiframe.
The MultiMaster impresses with a super height, thanks to our telescopic pole (adjustable up to 10 feet !) and an outstanding stability.

- Features Snap-lock BannerRail to secure the graphics
- Telescopic pole for maximum flexibility
- Single and double-sided functionality
- Excellent stability with a tripod base
- Message can be lifted from the floor to a perfect visibility
- Flexibility in graphic width
- No grommets or pole pockets required
- Banners up to 10 ft. tall x 46” wide



Banner Rail – Aluminum

Banners are attached using our snap-lock aluminum BannerRails, giving maximum flexibility in size and a totally secured graphic. Read more about BannerRails on page 18.

Mark Bric Display **SNAPUP®**
A Family of Dependable Displays

SnapUp® is a registered trademark by Mark Bric Display AB.

POPUP BACKWALLS / TOWERS

The most elegant way of presenting large-format graphics

Mark Bric produces two professional SnapUp models with unparalleled durability and quality of workmanship. Both systems are compact, portable and extremely user-friendly. Curved, straight or cylindrical shapes are available to fit all types of display requirements. The SnapUp products allow for fast presentation of seamless large scale images. Text and graphics are totally uninterrupted and will attract full attention.

MP1

MP1 is our top-of-the-line SnapUp model. Its cross-braced construction gives maximum strength and rigidity to the system, and most important, the graphic panels will always hang perfectly. MP1 is available in the classic curved pop-up format, as well as in straight format.

MP2

This is our most versatile SnapUp model and at the same time, economically priced. Absence of the cross-bracing makes it a traditional pop-up system and allows deep display shelving. MP2 is available in a curved, straight or cylindrical (tower) shape.

Kit Descriptions

Standard Kits

Include: frame, mag-bars and mounting hardware for graphic panels

Show Kits

Include: frame, mag-bars, **hard case, halogen lighting** and mounting hardware for graphic panels

Show Kits Plus

Include: frame, mag-bars, hard case plus **conversion kit**, halogen lighting and **Frontrunner® fabric panels**

Note: For Tabletop Kits, spotlights are sold separately.

ALWAYS INCLUDED

All SnapUp backwalls and towers include, at no surcharge, protective covers for the structure and the mag-bars.

(Mini has a separate pocket for the mag-bars in the carrying bag.)

Please observe! All systems include mag-bars for single sided use. For double-sided exposure of graphics, add extra mag-bars – see page 15. Special sizes of structures are available on request!

Transport Cases/Counters

Each SnapUp Show Kit or Show Kit Plus includes one of these hard-shell molded cases to safely store and transport your valuable display kit, complete with graphics. Each case is equipped with durable heavy-duty wheels for ease of movement. Cases can also be purchased separately.

Both the Oval and the Multi-Compartment case can easily be converted to attractive counters with wrap-around fabric or graphic panels.

Oval Case

The case has room for:
1/ Structure incl. mag-bars
2/ Graphic/fabric panels
3/ Two spotlights

Sturdy, hard-shell case with heavy-duty wheels provides a safe, effective way to store and transport your complete SnapUp kit. Case converts easily to a counter with the optional wrap-around fabric or graphics and a decorative drop-in countertop lid. 26x16½x35”h.

Oval Case	82009
Oval lid + fabric wrap	82070

Multi-Compartment Case

The case has room for:
1/ Structure incl. mag-bars
2/ Graphic/fabric panels
3/ Two spotlights

The case has three well-protected compartments: One for the structure, one for the graphic panels and one (the lid) for two spotlights. The lid may also be used as a step when assembling the spotlights on the system. Includes composite counter top (black/ beech). 29x17x 36”h.

The CaseSaver is a tough vinyl backed nylon case cover designed to protect latches and lid/counter edges during shipping and is included free with the Multi-Compartment case.

Multi-Case	5040
Fabric Wrap	9035
Case Saver	9038

Tabletop Case

The case has room for:
1/ Structure incl. mag-bars
2/ Graphic/fabric panels

This heavy-duty case is standard with all tabletop models. Two of these cases provide an alternative means of transporting floor model SnapUps. Ask customer service for details. 14x14x37”h.

Square Case	82008

Carrying Bags

Soft padded bags with shoulder strap for transportation of structure and graphic panels.

Padded carrying bag
for the graphic panels

Halogen spotlight
“Wall washer” light fixture with easy fit connector that works on all MP systems. 200 watt, 120 VAC
Item no. 80006

PAR 30 spotlight
Enclosed lamp meets the tightest known convention center regulations. Easy fit connector that works on all MP systems. 75 watt, 120 VAC.
Item no. 80008

Padded light bag
Holds and protects two Wall Washer (80006) or BannerUp (81005) light fixtures.
Item no. 5065

Attachment of Graphic Panels

Every MP kit comes with a complete set of the hangers, kickers,and mag-bars needed to install your graphics. Replacement parts may be purchased as follows:

Alternative 1: Kickers & Hangers

Full width "kickers & hangers" with extra strong adhesive tape. Attached both at the top ("Hanger") and at the bottom ("Kicker") of each graphic panel. No cut out in the graphic panel itself is necessary.

MP1 Curved		MP2 Curved		MP2 Tower	
Center	82380	Center	82390	All	82394
End	82383	End	82383	Mag-bars	82371
Rear	82381	Rear	82391		
Mag-bars	82341	Mag-bars	82371		

MP1 Straight		MP2 Straight	
Center	82384	Center	82392
End	82383	End	82383
Rear	82384	Rear	82392
Mag-bars	82341	Mag-bars	82373

Alternative 2: Hang tabs

Using these new hang tabs on your MP graphic panels will make the hangers and kickers disappear. Apply these self-adhesive hang tabs to the top rear corners of each panel and cut notches to match.

Fits both MP1 and MP2 models.

4x3	6 pairs
3x3	5 pairs
2x3	4 pairs
1x3	3 pairs

Item no. 82398

Alternative 3: Hang clips

Following numbers are needed for each system:

4x3	6 kits
3x3	5 kits
2x3	4 kits
1x3	3 kits

Another economical solution. Small end pieces with extra strong adhesive tape are attached to the top corners of each graphic panel + the top hubs of the system are exchanged. No cut out in the graphic panel is necessary. Graphics are totally unobstructed – no part of the system is visible.

Hang clips kit - Item no. 82280
Extra panel clips - Item no. 82278

Magnetic tape for the graphic panels

1 roll = 98 ft. Magnetic tape needed for each structure:
4x3 - 88 ft., 3x3 - 75 ft., 2x3 - 60 ft., 1x3 - 46 ft.

½" for backwalls	**82281**
1" for counters/desks	**82282**

Double sided option

All SnapUp structures can be used also double sided (= graphic panels on both sides of the system). Extra mag-bars and "kickers & hangers" for the reverse side must be added.

Complete kits of mag-bars and "kickers & hangers"

MP1 Curved		MP1 Straight		MP2 Curved		MP2 Straight		MP1 Mini

Interior Shelving and Sharp Corner Endcaps

SnapUp

Three sided mag-bar

Our new MP2 magnetic bar with magnet strips on three sides. Use this mag-bar for attaching the inner side graphics for interior shelving, as well as making sharp corners on the SnapUp wall systems.

Item no. 82930

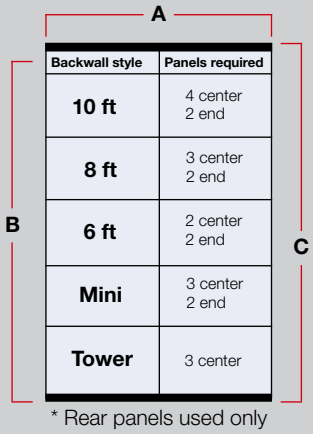
Inner Shelving for MP2 systems

Wooden shelf for MP2
Including carrying bag

Straight	**5229**
Curved inner	**5227**
Curved outer	**5228**

Graphic panel production

The size of each graphic panel for the different SnapUp models is as follows:



Backwall style	Panels required
10 ft	4 center 2 end
8 ft	3 center 2 end
6 ft	2 center 2 end
Mini	3 center 2 end
Tower	3 center

* Rear panels used only on double sided models

Structure	Graphic Panel Width (A) Front	End	Rear*	Graphic Panel Height (B)	Total Panel Height (C)
MP1 Curved Backwall	27 9/16	19 11/16	31 5/16	85 5/8	88¾
MP1 Straight Backwall	29 1/8	19 11/16	29 1/8	85 5/8	88¾
MP2 Curved Backwall	26 ½	19 11/16	31 ½	84 ½	87½
MP2 Curved Tabletop	26 ½	19 11/16	31 ½	56	59
MP2 Straight Backwall	28 5/8	19 11/16	28 5/8	84 ½	87½
MP2 Straight Tabletop	28 5/8	19 11/16	28 5/8	56	59
MP 2 Mini	9 13/16	15 ¾		21 7/8	23⅞
MP2 Tower	27 ¼			84 7/16	87⅝
MP2 Tower - Extra Tall	27 ¼			113 3/16	116 ⅜
Oval Case	68			31 ¾	
Muti-compartment Case	80			31 ½	

There are many materials and a variety of techniques for producing the graphic panels including 3-ply construction (laminate + print media + opaque backing) and 2-ply construction (laminate and printable opaque media). Regardless of the technique used, total thickness ranges are recommended at:
Center panels: .020" to .030"
End panels: .015" to .020"

DESKS AND COUNTERS

Receive your customers in style

Reception desks and counters are a most vital part at any trade show, exhibition, event and product demonstration. The Mark Bric counter units offer absolute top quality and perfect stability to serve you during many years.

- Excellent stability
- Polished wooden table tops/shelves
- Plenty of inner shelving space
- Easy and quick set-up
- 10 year warranty

Set-up time is less than 5 minutes. Finish off with your promotional graphic panel and the unit is complete.

New

Choose between “nature” or black table top.

Extra graphic bag for “Mini counter” when using one single panel.
Item no. 5035

TECHNICAL FACTS

Mini Counter, black or “nature”. Item no. 82038

Midi Reception Desk, black or “nature”. Item no. 82238.

Please note: Inner shelves are always ”nature” for Midi. Mini has black inner shelves with black top and “nature” shelves with “nature” top.

Magnetic tape, for one graphic panel, is included in all deliveries of the mini-counters/reception desks. To purchase extra tape, for the production of additional graphic panels, see page 15, item 82282.

Reception Desk

One carrying bag on wheels is always included.

40 lbs.

49”w x 18”d x 35½”h

Item	Description
82238	MP Desk, Standard Kit (hardware, soft rolling case, mag tape)

Hard Case on wheels 38h x 12" dia.

The graphic image is printed on a stretch fabric material and then attached to the system with Velcro tape. In erecting the system, the fabric is automatically stretched out and a smooth surface is achieved. The printed fabric remains attached to the system also during take-down and storage in the protective carrying bag/hard case. It can't be easier!

BANNERRAIL™

A Family of Dependable Displays

SUSPENSION BANNER RAILS

Smart and easy presentation of graphic banners!

Banner rails provide an attractive and cost effective way to suspend banners and posters in shop windows, malls, banks, travel agencies etc. – wherever you need to professionally display a suspended graphic. Mark Bric offers three excellent alternatives for different needs and requirements.

Three different models:

- Aluminum snap rail
- Aluminum slide-in rail
- Plastic slide-in rail

Attach rails to both top and bottom of banner/poster for maximum impact/stretch. For smaller sizes of banners the use of a top rail only may be sufficient.

Rails may be suspended one from the other if desired.

Use with optional accessories: Ceiling grid clips, C-hooks, suction cups and suspension chains. See page 25.

Aluminum Snap-lock design

- **Unique snap-lock design. 100% secure.**
- **Grips up to 0.016" (16 mil) thickness**
- **Unbroken lengths up to 89.5"**
- **Can be joined for extra length**
- **End caps in different colors**
- **Can be used in combination with our banner stands MultiMaster, Impression, and BannerUp**

ISOframe®
A Family of Dependable Displays

EXHIBIT SYSTEMS

ISOframe - Tool-less framework concept

ISOframe is a new, aluminum frame cladding system that can be assembled without tools. Ideal for creating stunning and innovative exhibition and retail displays. ISOframe structures can be assembled quickly, without tools, and clad in any number of rigid or flexible substrates. ISOframe incorporates FASTclamp – the world's first tool-less clamp.

FASTclamp - speeds up assembly 8 fold

FASTclamp is a simple lever operated clamp used to connect the framework replacing the hex key used on older systems. Our tests show that frameworks assembled using FASTclamp are up to 8 times faster to assemble than traditional frameworks.

This means substantial cost and time benefits for a display builder, as well as making structures easy to assemble for the self-build exhibitor.

ISOframe incorporates our new, patented 'i-Line' Intelligent Graphic Alignment System. Graphics are aligned in both the vertical and horizontal planes automatically using high-powered neo-magnets. Never again will the customer struggle to attach graphics.

FRAME & DISPLAY SYSTEM

Meeting a great variety of presentation needs !

Flexiframe is an extremely versatile framing system to help you arrange your information and promotional material in an effective and winning way. It is extremely well-tested and has been on the market for over 25 years. A unique modular system – smart and simple – and very economically priced.

- **Choose between different colors, sizes and shapes**
- **Offers unlimited display applications**
- **Ideal for posters and prints**
- **Easy to change inserts**
- **No special skills or tools needed**
- **Single or double-sided use**
- **5 year warranty**
- **Very economically priced**

For panels up to 0.220" / 5.5 mm thickness

Flexiframe uses hard boards, instead of soft graphic banners/ panels. This is a more economical and flexible solution.

Support brackets

For swing wing units, item 2013 and 2014, used with frames larger than 11 x17", we strongly recommend the use of our new support brackets (length 11.5").

Item No. 2015

More show for less money!

Heading to your next event or exhibition with a limited budget? You just need an easy-to-use, attractive and reliable display system to do the job. Flexiframe may be the alternative for you.

Flexiframe LinkUp™

Flexiframe LinkUp is based on the principle of individual frames which are easily joined together with metal connectors. Based on this principle, it is then easy to build exhibition units such as backwalls, tables, counters, towers, crosses etc.

LinkUp can be changed or added to at a later stage.

Backwall kits

Special promotion

Total size: 86"(w) x 94"(h)

Classic 6

- 1 Basic 6 backwall, frames 70x100 cm (6002)
- 1 Header frame 70 x 30 cm (105)

5855	Add-on-basic

Table Top Display (Hinged unit)

With 3 frames 50x70 cm (or 70x100cm) and 1 header. Total size: 64"w x 38"h (or 86"w x 54"h). Add whiteboard panels, poster-pockets, or fabric panels. **Item no. 7351 (Mini Basic); Item no. 6351 (Basic)**

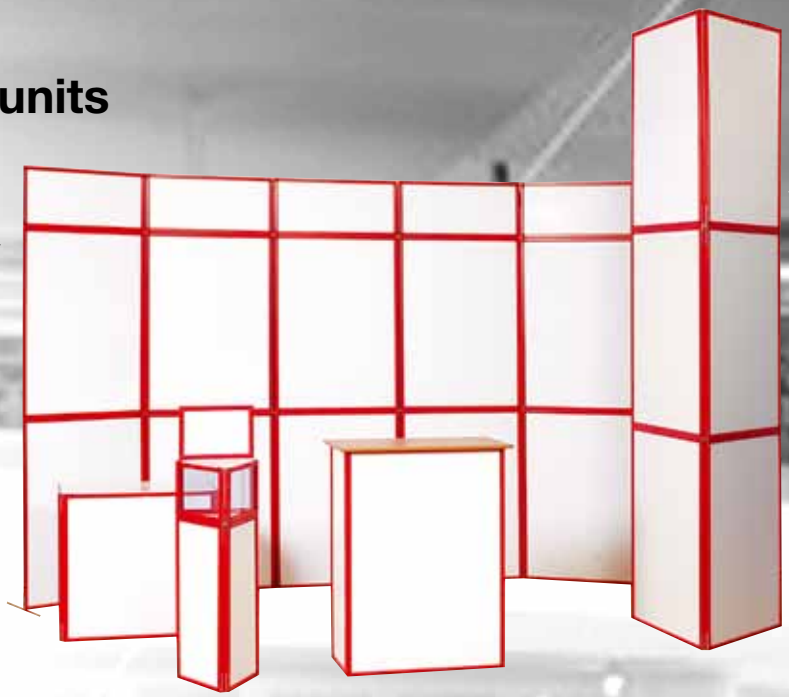
Table, Tower and Cross units

These standard kits are just some examples of what you can do with the Flexiframe system. By using different sizes, colors, shapes and configurations of frames an unlimited number of tailor-made solutions can be built.

These unique qualities, combined with an extremely attractive price, make the system extremely suitable for high volume POP displays as well.

The frames are assembled and the display unit is delivered in a cardboard box.The frames in the table and tower units are closed and have square corners.

Carrying bags or a transport case on wheels can be purchased separately.



Many of these towers and tables accept our LightUp display panels.

Triangular Tables

Technical specification Flexiframe

Origin
Flexiframe is produced and developed in Sweden by Mark Bric AB.

Material
The frame profiles are produced in durable Polyvinyl-plastic. The corner pieces are produced in polypropylene-plastic.

Colors
Profiles are produced in the following standard colors:
White (51), grey (52), red (53), blue (54), black (55), brown (56), green (57), beige (58), metalic grey (59), yellow (60), teal (61), burgundy (62), purple (63), and hunter green (64).

Information on frame sizes
All sizes given for the frames in brochures, price lists etc. are insert panel size (size of the panel to be inserted into the frame).

Further frame measurements are as follows:
Overall size = Panel size plus 1-1/8"
Visible panel size = Panel size less 3/4"
Cutting size of profile = Panel size less 1"

For example:
Panel size: 22" x 28"
Overall size: 23-1/8" x 29-1/8"
Visible panel size: 21-1/4" x 27-1/4"
Cutting size of profile: 21" x 27"

Corner types
There are two types of basic 90 degree corners: Rounded and square.
- ***Single frames*** are delivered with ***rounded corners*** as standard.
- Frames in ***backwalls and other displays and exhibition kits,*** such as tables and towers/crosses, are delivered with square corners as standard.

Assembly of frames
- ***Single frames*** ordered without panels are delivered ***unassembled.***
- Frames in ***backwalls and other displays and exhibition kits***, such as tables and towers/crosses, are always delivered assembled in cardboard boxes. Also for units ordered without panels.

Opening of frames
- ***Single frames*** are delivered with ***top opening*** on the short side for portrait size (except 70x30 cm and 50x20 cm with opening on the long side for landscape size) for easily changed insert.
- Frames in ***backwalls and other displays and exhibition kits,*** such as tables and towers/crosses, are delivered as closed frames. On these frame sections there is a marking label on the frame profile to indicate which side of the frame to take apart. Just pull the corners out of the profile to change the infill panel.

Panels
Most panels with a maximum 5.5 mm (0.220") thickness can be used inside the frames. Panels should be the exact size to avoid instability of display units. When suspending single frames, we recommend the use of ***light-weight*** panels.

Physical properties
We recommend interior use of the frames.
Min.temp: 0 deg. F / Max.temp: 120 deg. F
UV-radiation
To minimize color changes we recommend you to avoid darker frame colors, for example black, red and blue, in direct sunlight.

Flammability
UL 94 V-O (low)

Connectors
Frame connectors are produced in zinc-plated steel.

Table tops
Table tops are produced in white painted aluminum. We recommend that table top loading should not exceed 50 lbs.

When building table displays, the frame insert panels must be accurately cut to size and squareness. This will ensure the maximum strength and stability of the table.

1

Consisting of:
- 1 Flexiframe Basic 6 backwall with header, width 87" , item 7023.
- 1 Flexiframe Demo-counter, item 6100.
- 1 SwingUp literature rack, item 83020.

Confidence in Mark Bric

OUR QUALITY – YOUR GUARANTEE

All Mark Bric products are manufactured with the highest standard of workmanship and the best quality of materials available. All products are constantly subjected to demanding quality control, well-tested on the market and designed to provide years of trouble-free use.

PRODUCT DESIGN

The design of our products is always aiming to achieve the utmost in functionality, attractive looks, quality finish and close attention to the smallest detail. Last, but not least: All Mark Bric products have a user-friendly construction.

PRODUCT INNOVATION

Our goal is to be a leading producer, with up-to-date and innovative product solutions. Our products will give you the perfect tool to realize well-functioning and attractive displays and exhibits. Purchase a Mark Bric product and be sure to get a product aimed at the future.

WORLDWIDE NETWORK

You are most certainly always close to a Mark Bric distributor/dealer to solve your display needs. We have a worldwide network of stock-keeping partners, well-informed and trained on the Mark Bric product range. This gives you an assurance of excellent service at exhibitions all over the globe.

SERVICE

A most vital and integrated part of our company policy and always free of charge. You can take it for granted!

JUST IN TIME

An extremely important factor, when working with displays and exhibitions. Our own factory, with in-house production, guarantees flexibility and shortest possible delivery times. We have 30 years experience of export business and shipping.

PRICE

Our guiding star: Always to give our clients the highest possible value for money!!

Mark Bric Product Warranties

Our general policy for claims is a "no questions policy," built on trust and fairness between ourselves and our clients. If something fails, we will stand behind our clients 100% and are prepared to do the utmost to immediately solve the problem.

It is always important to gather the information about any problems with our products. This allows us to make continual improvements aimed at perfecting the Mark Bric product range in the areas of quality and durability.

We hereby have the pleasure to inform you about our new improved warranties on our products:

- EGO	10 year warranty
- SnapUp	10 year warranty
- BannerUp	10 year warranty
- BannerRail - aluminum	10 year warranty
- ISOframe	10 year warranty
- SnappyFrame	5 year warranty
- Impression	5 year warranty
- BannerUp Lite	5 year warranty
- MultiMaster	5 year warranty
- SwingUp	5 year warranty
- Flexiframe	5 year warranty
- Banner Rail – plastic	1 year warranty

Under the general terms of this warranty, Mark Bric will, at its sole discretion, repair or replace any product covered by the warranty and found faulty during the course of normal use. All system hardware* is covered by this warranty against manufacturing defects in materials, quality or workmanship. The warranty does not extend to damage caused by negligence or abuse, nor does it protect against normal wear and tear, such as scratches, associated with routine use, as well as transport damages.

In the event of product failure or malfunctioning, please begin by contacting the Mark Bric dealer/distributor from which the system was purchased. In the event that the dealer cannot be located, please inform us by e-mail (display@markbric.se) about your problem.

**Cases and some accessories are excluded, but all items are guaranteed for at least one year.*

EC Design

Build up the scene (a trade show stand, a show-room, a reception area etc.) in 2D.

Press a button and the scene is automatically transformed into 3D.

EcDesign – anybody can use it!

Mark Bric EcDesign is a unique (Windows based) software for quick and realistic design of the Mark Bric products in 3D. It is extremely user-friendly. You do not have to be an educated CAD programmer, instead anybody can use it and create functional and "selling" presentations after a couple of hours training. EcDesign will save you time and money and definitely help you to increase the sales of the Mark Bric products.

Mark Bric Sales Support Material

For Mark Bric distributors and dealers worldwide

We believe strongly that a wide range of functional and attractive sales tools and demo products are important in the process of marketing our products. They will help you to increase the sales of the Mark Bric products and are definitely worth the investment.

Moving pictures are perfect in showing how easy-to-use the Mark Bric products are. Ask for our film CD´s. A reference photo CD for Flexiframe is also available.

A variety of Mark Bric bestsellers, with striking graphics, make an attractive and representative showroom arrangement.
